**Tops**

Laminate tops are 1 1/8" thick and are offered with fixed or slim-tilt bases. Tables must be in lowest position to tilt.

Base Materials

The base is available in Versteel's standard powder coat offering. Sky tables with the Troupe style base are not available in transparent powder coat, Chrome or Nickel.

Casters

Tables are standard with two locking casters on the user side and two non-locking casters on the approach side. Each caster is fitted to a reinforced caster receiver. Optional glides are available at no upcharge.

Adjustable Height

Sky Adjustable Height tables with the Troupe style base offer infinite adjustability from sit to stand or anywhere in between. Tables with casters (standard) have a 30" - 43" height range and those with glides have a 27" to 40" height range. All Sky tables are ADA compliant.

Operational Standards

These patented height assist tables are manufactured using pneumatic cylinders. The greater the weight placed on the table top, the greater the effort will be required to operate the pneumatic assist. This inverse applies when lowering the table.

Wire Management

The slim-tilt tables include two clear plastic wire managers which are formed to create a J channel. In addition to housing wires, these channels also act as a bumper between nested tables to prevent table top damage.

Laminate and Veneer, Standard Core Construction

The standard top construction consists of 45-50 lb particleboard, surfaced with a high pressure laminate. A backer sheet is laminated to the underside of the top.

PVC Flat or Fluted Edge

Edge of 2mm PVC hot melt banded to the top with 1/8" radius at the top and bottom. Available with 1 1/2" radius corners or square corners.

Offered in twenty-one (21) standard colors.

Wood Flat or Fluted Edge

Wood banding hot melt banded to the top with 1/8" radius at the top and bottom. Available with 1 1/2" radius corners or square corners.

Offered in Ash, Cherry, Maple or Walnut materials.

Bumper Edge

Exposed ply core banding with rubberized 5/8" width bumper in the center of profile. Corners with 1 1/2" radius are available on tables with 1 1/4" edge thickness.

Offered in black bumper standard color.
